Product Info

For the first time, the new cable pull system enables the height of the right and left cable guides to be adjusted independently of each other. Thanks to the patented technology, a wide variety of exercises can be performed in just a few simple steps.

Properties

- 4-fold reduction for fluid movement and slightest increase in weight
- Training of the explosive force possible through reduction
- Weight block: 15 x 5kg

Device Setting

- Position of rope exit (right & left) in 18 steps
