### Synchro 4back

The synchro 4back circuit from SCHNELL training devices is the only fully automatic circuit that covers all three dimensions through extension, flexion, lateral flexion and rotation. 25 years of experience in back therapy flow into the machines!

### Trainingsablauf 5er-synchro-Zirkel

5 Kraftgeräte für Schultern, Rumpf und Beine;  
Trainingszeit: 6 Min 50sec

### Properties

#### Synchro 4back

- Even in the smallest of spaces, the back can be stabilized and trained long-term and sustainably with little expenditure of time.
- Scientifically sound principles, combined with constant further development and many years of experience, form the basis for measurable success.
- Economic aspects and above-average results in the area of freedom from pain are the focus of this concept.
